3. Beware of the High Speed Rail: The Federal Railroad Administration which will fund much of the new high speed rails is void of the USDOT DBE program. Therefore, there will be no minority goaling on these projects. Many of you find the construction of such projects to be an opportunity. You are wrong! No goals; no contracts for certified Blacks, Hispanics, Asians and women. Where is the Congressional Black Caucus in all of this? Sitting there watching it happen – so sad. Our position is clear:

No funding of

high speed rails until the DBE program is incorporated

4. For-Profit Institutions are Tops for Awarding Bachelor's Degrees to Minorities: The preliminary rankings of the top 100 schools that produce degrees for minorities are part of an annual special report released by Diverse: Issues in Higher Education, using graduation data from the Education Department. The University of Phoenix led the way in awarding degrees to Black students while Florida International led the way for Hispanics. Overall, a larger portion of

degrees obtained by the three underrepresented minority groups (Blacks, Hispanics and Native Americans) are received through proprietary institutions, representing a decline in the overall market share for public and private institutions.
